Ossen Innovation Pre-Announces Full Year 2020 Financial Results

SHANGHAI, March 17, 2021 /PRNewswire/ -- Ossen Innovation Co., Ltd. ("Ossen Innovation" or the "Company") (Nasdaq: OSN), a China-based manufacturer of an array of plain surface, rare earth and zinc coated pre-stressed steel materials, today announced that preliminary revenues and gross profit attributable to Ossen Innovation for the full year 2020 are expected to be \$139.0 million and \$23.9 million, compared to \$138.9 million and \$22.4 million for the same period of last year.

The expected slight increase in revenue is primarily due to an increase in sales of zinc coated prestressed products, partially offset by a decrease in sales of plain surface and rare earth coated prestressed products. Gross margins in 2020 are expected to show a 113-basis points improvement, primarily due to the improvement of the profitability of rare earth coated and zinc coated prestressed products in 2020.

The information set forth herein represents our preliminary estimated unaudited financial data for the year ended December 31, 2020, which is subject to revision based upon the completion of our year-end financial closing process and external audit of our results of operations for the same period. We are still in the process of completing our financial statements for the respective period. Therefore, it is possible that adjustments to the data presented herein will be made.
